

Preliminary Evaluation of Technology

1. Technology Details

- **Title** (*Describe your invention in ONE sentence*)
- **Name of Inventor(s)**
- **Email & Mobile No of Inventor(s)**
- **Place of Technology Development** (*write full address with contact details of place*)
- **Domain** (*Mention domain i.e. healthcare, medical devices, agriculture, veterinary, etc.*)
- **Problem statement** (*3-4 lines on the problem end users face*)
- **Proposed solution** (*3-4 lines on how the technology solves the problem*)

2. Novelty

- **Closest existing solutions** (*3 points on similar products or technologies*)
- **Key Differentiators** (*3 points on how your technology is better than existing ones in terms of time, cost, efficacy, etc.*)

3. Stage of development

- **Current development stage**
 - concept*
 - lab scale proof-of-concept*
 - prototype*
 - field validated*
- **Availability of data**
 - Experimental data*
 - comparative data vs existing solutions*
 - field data*
 - no data yet*

4. IP status

- **Patent status**
 - Filed*
 - Published*
 - Granted*
 - Not filed*
- **If patent not filed, any publication?**

5. Major Technical Risks
