## Foreword

On behalf of Gujarat state Biotechnology Mission, I hereby bring forward the third edition of Directory of Biotechnology & Life Science Companies in Gujarat. Biotechnology has potentiality to play a pivotal role in every sector of the economy. Therefore Government of Gujarat has been undertaking relentless efforts to catalyse the growth of Biotechnology for socio-economic progress.

The present compilation is an updated version which has been brought out in a newer format to enlighten the sustained efforts of state government for the growth and development of the biotechnology sector in the state. Biotechnology industries have been driving the sector by bringing in innovative products, expanding businesses and research collaborations as well as creating employment opportunities.

This compendium is prepared with the objective to provide information of biotech business, sale of new biotechnology products, to encourage inter and intra -sector partnerships and strategic tie ups in order to promote Gujarat as biotechnology destination. The compendium provides analysis about evolution of biotechnology sector as a whole and also amongst its various constituent components i.e. Agriculture Biotechnology, Pharmaceutical and Healthcare Biotechnology, Bio-services, Industrial Biotech, Environment Biotechnology, Food biotechnology, Bio-informatics. The compilation presents the entire landscape of biotech industries in Gujarat, along with its value chain. It also underlines the increase in number of biotech industries in Gujarat, the ideal ground for global players, which widens platform for Biotech SME's, the growing league of big Biotech players and the potential for future growth.

With successful Vibrant Gujarat Summits and Biotechnology investments -committed, completed and ongoing, Gujarat is emerging as global biotechnology strategic hub. In the given background I appeal to all Gujarat based entrepreneurs to second our efforts to place Gujarat on Global Bio-map. I also take opportunity to invite the global biotechnology community to partner with Biotechnology industries in Gujarat.

I am thankful to our parent department – Department of Science & Technology and to the industries who have shared their valuable information with us, which has made this compilation possible. I also put on record the excellent team spirit, hard work with which the young team of GSBTM undertook the task and endeavoured to complete it.

I am sure that in the efforts of this nature, some lacunae might have crept in inadvertently which provides scope for further improvement. It will be our constant effort to update this Directory at regular interval and I welcome your input and feedback.

**Akshay Kumar Saxena, IFS (Mission Director)**

## Gujarat State Biotechnology Mission (GSBTM)

### Formation

To facilitate overall development of biotechnology in the State and to function as the implementation, feedback and promotional arm of the State Government, Gujarat State Biotechnology Mission, GSBTM has been constituted as an autonomous body by a government resolution under the aegis of Department of Science & Technology, Government of Gujarat and has initiated its operations from April 2004. The Government of Gujarat, in its resolve and continued efforts for socioeconomic upliftment of society, has identified Biotechnology as single most potential tool.

### Vision

To realize and harness the potential of Biotechnology as a human endeavor for the highest intellectual pursuit and as an effective future delivery system for creating a disease free, nutritionally secure society living in safe, clean environment, leading to overall socio economic growth, welfare and progress of humanity.

### Structure

The operations of Biotechnology Mission are regulated by four sector specialists, with their respective staff are taking charge of different sectors of biotechnology, headed by the Mission Director.

### Activities

- Awareness generation and knowledge upgradation programs like seminars, workshops, lecture series, participation in fairs and exhibitions
- Supporting and developing Centers of Excellence in various sectors of biotechnology
- Supporting and facilitating Human Resource Development in biotechnology
- Promoting biotechnology research and supporting infrastructure development
- Developing institutional framework for the implementation and regulation of biotechnology programs
- Networking and co-ordination of biotechnology sector

### Objectives

- To implement the biotech policy and programs
- Study and examine the central policies and international covenants
- To liaise between the Central and State Government, international institutions, organizations and academia
- To encourage research and industrialization in the field of biotechnology in Gujarat
- To promote and develop the human capacity and infrastructure support in the field of biotechnology
- To monitor, state, evaluate, execute and implement the State Government programs in the area of biotechnology
