

# **GUJARAT STATE BIOTECHNOLOGY MISSION**

**Department of Science & Technology  
Government of Gujarat**

# BIOTECHNOLOGY MISSION

The science of biotechnology is emerging as potential tool for development and technology of hope for the society. The State Government of Gujarat, in its resolve and continued efforts for socioeconomic upliftment of society, has identified Biotechnology as single most potential tool of development. To facilitate overall development of Biotechnology, State has constituted Gujarat State Biotechnology Mission

## **GSBTM-VISION**

**“To realize and harness the potential of Biotechnology as a human endeavor for the highest intellectual pursuit and an effective future delivery system for creating a disease free, nutritionally secure society living in safe, clean environment, leading to overall socio-economic growth, welfare and progress of humanity**

# MANDATE

- **To promote, support and facilitate the overall development of Biotechnology in the State**
- **To provide institutional, legal, financial and policy support**
- **To facilitate networking amongst stakeholders at Regional, National and International level**
- **To facilitate the infrastructure development and R & D activities**
- **To create scientific awareness, sensitization, socioeconomic acceptance and adoption to the potentials and application of Biotechnology**

# OBJECTIVES

- Awareness programs like seminars, workshops, lecture series, participation in the fairs and exhibitions
- Supporting and developing the centers of excellence in various sectors of Biotechnology
- Programs for human resource development
- Supporting Biotechnology Research
- Supporting Infrastructure Development
